

# Spectrum Enterprise and MiCTA: Technology solutions procurement made easy

Purchasing new technology doesn't have to mean a time-consuming competitive bidding and RFP process. With Spectrum Enterprise®, a part of Charter Communications and MiCTA, you can streamline how you procure connectivity and network solutions. That means your organization can access the technology solutions it needs faster through a pre-negotiated, federally approved master service agreement.

## About MiCTA

Founded in 1982 as a networking organization of telecommunications directors, MiCTA, formerly the Michigan Collegiate Telecommunications Association, has greatly expanded. The organization now conducts research, monitors legislation, offers professional development opportunities and facilitates purchasing programs to public sector and nonprofit entities — including state and local governments, healthcare organizations, higher education institutions, K-12 schools and school districts, libraries, and religious and charitable organizations. As a national nonprofit consortium, MiCTA aggregates member demand to facilitate members' purchases of competitively bid technology products and services from select vendors.

## MiCTA benefits

MiCTA members enjoy a streamlined process for procuring services. Master service agreements with approved providers like

Spectrum Enterprise eliminate the need for members to conduct their own competitive bidding for services.

MiCTA is a national government contract vehicle, which makes procuring services easier and more efficient. For example, MiCTA members do not need to submit a formal RFP. ([Learn more](#) about joining MiCTA and its services.)

## Choose Spectrum Enterprise as your preferred provider

Spectrum Enterprise is a national provider of scalable, fiber-based networking and managed network services solutions. Our breadth of services and decades of experience have made us one of MiCTA's primary fiber service providers.

Whether you are a government entity upgrading its phone system or a healthcare organization integrating new locations onto its network, Spectrum Enterprise offers a complete portfolio of technology services. Our commitment to focus on client experience means we tailor our services to meet your needs and are available 24/7/365. Let our dedicated team of industry experts simplify the procurement process for you today.
