

# Ethernet Services for healthcare

## Transform your network with high-performance Ethernet

Electronic health records, telehealth, remote patient monitoring, connected medical devices, advanced imaging and vast amounts of digital health data are all accelerating the transformation of wide area networks (WANs). As the WAN evolves, modern networking solutions, such as Ethernet, deliver the enhanced performance and security that healthcare organizations demand.

**Healthcare organizations are modernizing their networks with new technologies, deploying cloud-first strategies, embracing multi-cloud connectivity and enabling hybrid networking to bring their IT strategy to life.**

With speeds up to 100 Gbps, our Ethernet Services provide secure, reliable connectivity to power cloud-based applications. Spectrum Enterprise® is a nationwide network partner that can connect your locations, empowering you to leverage bandwidth-intensive applications and fortify continuity of operations plans. Backed by an end-to-end service-level agreement (SLA) all the way into your suite, our Ethernet Services simplify your network infrastructure.

Partner with an experienced provider that can put your healthcare organization's network modernization on the fast track. Committed to your success, our expert network engineers work with you to design a tailored solution. We provide you with a dedicated project manager to oversee a seamless installation with 24/7/365 support, and a client services manager will ensure any issue resolution. Furthermore, our portal gives you the network visibility required to ensure a positive experience for your organization.

### Product highlights

#### Superior performance

Accelerate the capabilities of your mission-critical applications with SLA-backed services and integrate your network with public and private clouds.

#### National reach

Easily add new locations with our dense metro fiber coverage and nationwide reach supported by more than 230,000 fiber-route miles.

#### Inherently secure

Rely on a private native Ethernet network to connect your locations and use additional VLANs to further isolate traffic.

#### Simple management

Reduce IT complexity with end-to-end support from a network partner you can trust to design and manage your high-performing network.

Spectrum Enterprise is recognized as a top U.S. Ethernet services provider by leading industry analyst firms.<sup>1</sup>

## Scalable, secure connections linking your users, locations and the cloud

### Spectrum Enterprise Ethernet Services

Private WAN connectivity protects network locations from external threats, like DDoS attacks, while supporting low latency and high-bandwidth applications.

### Take your performance further with additional services

#### Cloud Connect

Extend your network with fast, secure and dependable private Ethernet connections to public cloud service providers.

#### Fiber Internet Access

Achieve dedicated internet connectivity with symmetrical upload and download speeds and bandwidth up to 100 Gbps.

#### Managed WiFi

Meet patient, provider and staff demands for reliable connections to the internet with ubiquitous coverage across your facility and 24/7/365 support.

#### Managed Router Service

Efficiently route Ethernet, internet and other network traffic with a variety of protocols and improve bandwidth utilization without investing in hardware or day-to-day management.
