

TV Streaming Access for hospitality

Enrich the guest experience with personalized streaming services that extend across your property.

Spectrum Enterprise TV Streaming Access for hospitality offers guests live and on-demand TV programming delivered to their personal devices. Where there is authenticated WiFi on your property, guests will have access to the content they want most.

This add-on service to Spectrum Enterprise TV solutions ([Fiber Connect Plus TV](#) and [Set Back Box TV](#)) delivers over 200 available channels of live TV in addition to a large on-demand library with up to 40,000 movies and shows. Plus, shows or movies started on the in-room TV can continue to be watched throughout the hotel on personal devices.

Programming is delivered from our content delivery network to a multitude of popular devices via a private and dedicated IP connection resulting in reliability and cost savings on equipment and maintenance. We also offer local account executives, local technicians and round-the-clock U.S.-based support you can rely on.

Improve the guest experience and simplify your vendor management with video streaming and traditional TV programming from a single entertainment provider.

1. Certain content may not be available in designated areas of a hotel property.

Top benefits:

- **User-friendly:** Guests simply download the app and connect to the hotel's authenticated WiFi network to watch on personal mobile devices, tablets and laptops anywhere on the hotel property.
- **Wide variety of programming!** More than 200 available channels of live TV featuring entertainment, news, sports, Spanish-language and international programming in addition to a large on-demand library. See our programming bundles and packages at enterprise.spectrum.com/channels.
- **Easy to use design and features:** Popular features include an easy keyword search, guide filters, sorting and favorites functionality.
- **Cost-effective and reliable:** No coax wiring or rewiring is required and no client-purchased head-end and transcoding equipment are needed. The service is delivered from our content delivery network via a private and dedicated IP connection, which is not susceptible to weather-related disruptions.
- **Flexible viewing options:** Allows guests in the same party to watch different programming, leading to an overall enhanced entertainment experience.
