

MODERNIZE YOUR NETWORK NOW

Get a secure, flexible and scalable workplace solution by bringing together equipment, connectivity, management and support from Spectrum Enterprise.

Managed Network Edge

Internet security

Gain peace of mind with:

- Secure connectivity for office, remote and mobile workers.
- Automated security updates.
- Secure access to cloud providers.

Switch and WiFi

Provide a simple, worry-free and modern network experience with:

- Zero-touch provisioning.
- Self-optimizing WiFi performance.
- At-a-glance, proactive network monitoring.

Environmental sensors

Automatically detect environmental events as they happen to:

- Minimize business disruptions.
- Reduce unnecessary costs.
- Maximize resources.

Smart cameras

Proactively monitor and manage physical locations to ensure safe experiences with:

- Instant access to critical-event footage.
- Real-time motion analytics.
- Cloud-based storage for video footage.

Managed
workplace

One partner for service,
management and support

Portal

Enable consistent, optimized network performance across any environment with:

- Full-network visibility from anywhere.
- Real-time alerts and monitoring.
- Easy-to-update network settings whenever and wherever you want.

Dual internet access

Keep your organization connected and ready for anything with:

- Alternative, separate paths of connectivity.
- 99.99 percent network availability.
- Automatic failover and fallback.

Voice and unified communications

Exceed customer expectations, improve employee engagement and safeguard performance with:

- A single platform for calling, messaging, meetings and virtual workspaces.
- Enterprise-grade, end-to-end data encryption.
- Fully managed deployment, monitoring, training and ongoing maintenance.

Dual connectivity

Create a resilient network by using dual connectivity. A second connection can be used as a failover for uninterrupted service while also allowing you to use both connections simultaneously to optimize traffic.

Smart spaces

Managed Network Edge smart space solutions give you valuable insights into your physical and digital work environments to help you minimize business disruptions, reduce unnecessary costs, maximize resources and improve the experiences of employees and customers.

Internet security

Managed Network Edge offers firewall, unified threat management (UTM), URL content filtering and advanced malware and intrusion protection in addition to alarm notifications if there is a problem.

Modularity

Delivered over the Cisco Meraki platform, Managed Network Edge allows you to buy the services you need now, such as security and routing, and then add additional services like WiFi, switching or cameras as your needs evolve. You can also add more capacity to your current services as your needs grow.

Remote capabilities

Provide your employees an in-office experience regardless of their location with secure, optimized connections to your network or cloud via our Managed Network Edge Remote Worker solution.

Single partner

Our network experts, along with our national reach and multiple connectivity options, make Spectrum Enterprise uniquely qualified to be your single networking partner. We can tailor a complete and managed solution to meet your needs with the flexibility to grow with you.
